

Carbide

Carbide is a mobile development tools family from Nokia. Carbide is a move to unify Nokia's mobile development tools into a common framework. It supports multiple platforms and multiple languages.

The Carbide tools family includes a number of IDE plugins.

- Carbide.c++ for Symbian Development
 - ◆ Carbide.c++ Developer Edition
 - ◆ Carbide.c++ Professional
 - ◆ Carbide.c++ OEM

- Carbide.ui for User Interface Customization in Nokia Series 40 and S60
