## HTML

To enable system info API in widgets it needs to be embedded in the document since it is implemented as a netscape scriptable plug-in.

```
<embed type="application/x-systeminfo-widget" hidden="yes"></embed>
```

### HTML example

```
<!DOCTYPE HTML PUBLIC "-//W3C//DTD HTML 4.01//EN"

  <body onload="testapi()">

  </body>
</html>
```
