

## How\_to\_Change\_CEikLabel\_Color\_in\_Symbian\_C++

**Reviewer Approved**

```
#include <gulcolor.h>

//Here iLabel is a class member of type CEikLabel*
iLabel= new (ELeave) CEikLabel;
iLabel->SetContainerWindowL( *this );
iLabel->SetTextL( _L("Some Text") );

// Using blue as foreground color
iLabel->OverrideColorL( EColorLabelText, KRgbBlue );

// Set red as background color
iLabel->OverrideColorL(EColorControlBackground, KRgbRed )
```
