

PE

Note!

Please note that, following the withdrawal of Carbide.vs, Forum Nokia no longer supports the Microsoft Visual Studio IDE for Symbian C++ development. For more information see the [Carbide.vs withdrawal page](#) on Forum Nokia.

PE stands for the **P**ortable **E**xecutable file format. This format specifies the structure of executable and object files for the Microsoft Windows operating systems. The PE format is aimed to enable hardware and machine architecture independent executables across the family of Windows operating systems.
