

## Simple\_way\_to\_display\_a\_splashscreen\_in\_Java\_ME

### By using alert

```
public void splashScreen(
    Display d, Displayable next ){
    Image logo = null;

    try {
        logo = Image.createImage(
            "/images/splashscreen.png" );
    }
    catch( IOException e ){
    }

    Alert a = new Alert( "SplashScreen",
        "",
        logo, null );
    a.setTimeout( Alert.FOREVER );
    display.setCurrent( a, next );
}
```
