

Talk:IP_Passthrough_tutorial_-_use_your_PC_Internet_connection_from_your_phone

Does it work with Nokia E61i? I can not configure an Ip passthrough Access Point on the phone. Thanks.

It should work on E61i

According to me it should work on all E Series phone also on E61i Make sure that u have followed step no 7 as doing this solved my problem also check whether u have dhcp enabled or u have to give static Ip

Not working

Nokia has removed this feature from E61i.
