

This page is intended as temporary host for undocumented Symbian OS and S60 panics.

Category	Reason	Definition	Description
CBA	0	EEikPanicCBAControlArraySize	Attempt to iterate CBA buttons outside the array range.
	1	EEikPanicCBANullButton	Not used
	2	EEikPanicCBACannotConvertToCEikCommandButton	It is not possible to convert a CBA button to a CEikCommandButton. Please use an interface that does not use a CEikCommandButton conversion, e.g. CEikButtonGroupContainer::SetCommandL
	3	EEikPanicCBAIsNotEnhancedCba	
	4	EEikPanicCBAButtonCountDiffersFromCommandTableSize	Too many buttons defined in the resource. Corrupt resources?
SWInstSvr	0	ESWInstPanicBadRequest	Not used.
	1	ESWInstPanicBadDescriptor	The server is requested to handle an incomplete message. The request might be missing: file name, mime type, installation options and/or parameters.  For example, a silent install request must always have installation options defined as well as a file name indicating which file is to be installed.
	2	ESWInstPanicBadHandle	A request has been issued but there is no session open with the installer server. Make sure to successfully call RSWInstLauncher::Connect() before issuing requests.
DBMS-Table	0	EDbInvalidColumn	
	1	EDbWrongType	
	2	EDbInUpdate	
	3	EDbNotInUpdate	
	4	EDbInvalidRow	
	5	EDbRowNotRead	
	6	EDbReadOnly	
	7	EDbTableOpen	

Undocumented\_Symbian\_OS\_and\_S60\_panic

	8	EDbNotEvaluated	
	9	EDbStreamOpen	
	10	EDbRowSetConstraintMismatch	
	11	EDbBeginNestedTransaction	
	12	EDbUpdatesPendingOnCommit	
	13	EDbUpdatesPendingOnRollback	
	14	EDbNoCurrentTransaction	
	15	EDbStreamsPendingOnCommit	
	16	EDbStreamsPendingOnRollback	
	17	EDbInvalidBookmark	
DBMS	0	EDbUnimplemented	The function is not implemented in the DBM API.
	1	EDbInvalidColumn	The column is out of range.
	2	EDbUninitialised	The DBMS session is not initialized, Did you call RDBs::Connect()?
	3	EDbRowLengthOverflow	Unused AFAIK
	4	EDbTooManyKeys	
	5	EDbInvalidViewWindowParameters	The TDbWindow fore and/or rear slots are negative.
	6	EDbWrongType	Trying to read column data of the wrong type
	7	EDbInvalidIncrementalStep	The incremental step in RDbIncremental::Ne must be > 0
	8	EDbNoColumnsInSeekKey	RDbTable::SeekL is being used with an empty seek key
AknIcon	0	EClientSessionNotConnected	
	1	EBadServerRequest	
	2	EBadDescriptor	
	3	EIconNotFound	
	4	EBitmapIconNotLoaded	
	5	EInvalidParameter	
	6	EWrongIconLocationInfo	
	7	EFileProviderCorrupt	

Should you run into an undocumented panic please add it to the queue. Hopefully somebody will find the time to track it down and document it.
