

Please note that, following the withdrawal of Carbide.vs, Forum Nokia no longer supports the Microsoft Visual Studio IDE for Symbian C++ development. For more information see the [Carbide.vs withdrawal page](#) on Forum Nokia.

Visual Web Developer Express is a free IDE from Microsoft to develop websites using ASP.NET Technology. It can create mobile websites too with [ASP.NET Mobile Controls](#) technology that can create [WML](#), [XHTML MP](#) or [HTML](#) content based on the device that is browsing the website.

You can design visually the mobile form, dragging and dropping mobile controls and settings its properties. You can add behavior to the website with Visual Basic or C# languages and to connect to many databases, like SQL Server.

You can download free this IDE from <http://msdn.microsoft.com/vstudio/express/web>
