Script coding with WidSets Scripting Language

Here are a few widget examples to illustrate the SDK possibilities and to get the developing started.

To get the full widget ZIP packages with all the resources, download the devkit ZIP package at [WidSets SDK](#).

Example widgets

The current devkit version comes with four example widgets.

- A clock widget with a punch - [WidClock](#)
- Refresh your memory with a blast from the past - [Memory Game](#)
- Filter demonstration - [Filter test](#)
- Simple Hello World application as a widget - [Hello World](#)
- UITest widget that demonstrated UI capabilities - [UITest](#)
